

# TELEMEDICINE

**Improve organization, management and sharing of medical records, data, and images.**

## **BENEFITS**

- Secure and immediate access
- Improved diagnostics
- Save time and reduce costs

*Acetiam Connect meets confidentiality requirements for secure protocols of online image file exchange. Access is only granted to authorized professionals involved in the case. All exchanges and access points into the platform are traceable.*

**Acetiam Connect helps facilitate the exchange of medical images and clinical data between healthcare professionals and medical facilities.**

Utilizing Acetiam Connect's telemedicine platform, doctors can create a case for a patient, and send it to a referring doctor who will review and provide a diagnosis. Once a digital case file is created for a patient, additional medical data can be gathered, added, and shared as needed. Medical professionals and doctors can consult in real time and request advice from specialists such as radiologists or neurosurgeons.

Desktop and remote access through multiple devices

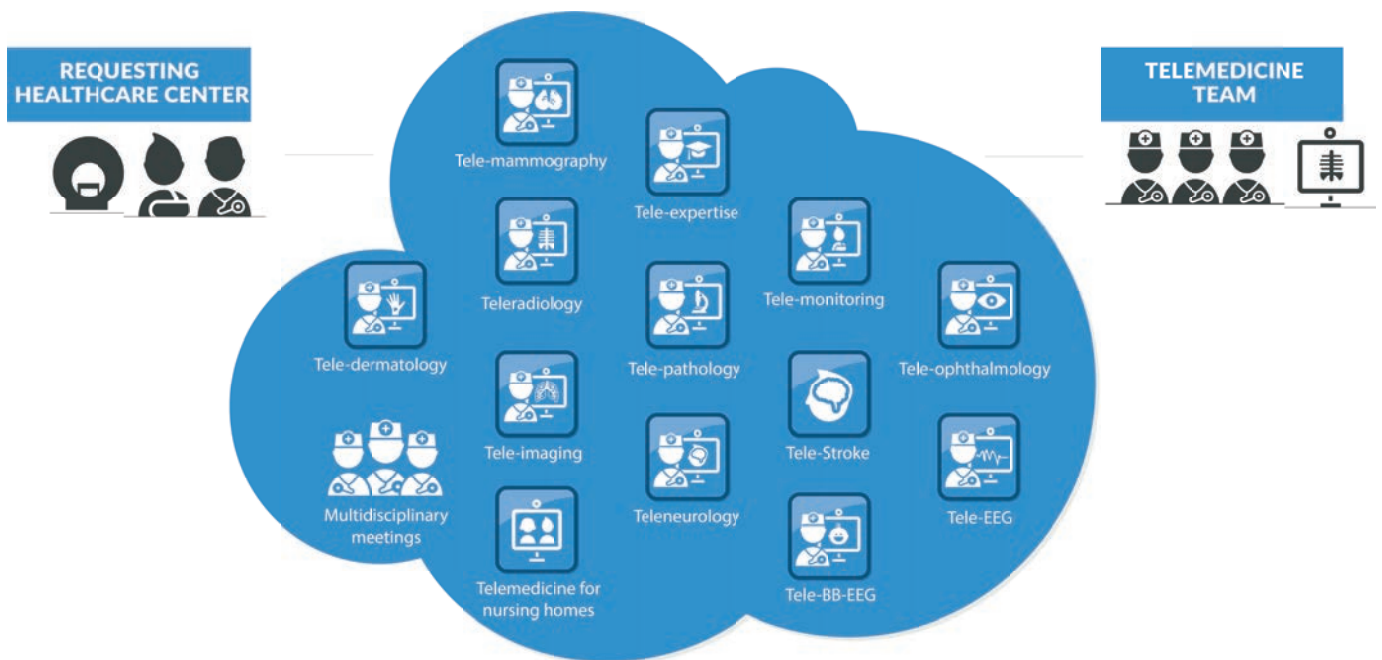

More than 500 Healthcare facilities already use Acetiam Connect.  
Approximately 20 million images are exchanged with Acetiam's teleimaging solutions and services each month.

# TELEMEDICINE

Enhance patient care in a variety of medical specialties with secure file sharing and teleradiology.

Acetiam Connect integrates easily with physician's imaging equipment (modalities, PACS stations, post-treatment stations), and can be reviewed in all types of medical data medium (CD, images, videos, documents) through DICOM import.

If you have a question or a project you want to explore with Acetiam Connect, please contact us at (617) 395-5809.
